

Letter of Recommendation 2

Emerson Nguyen | CAID: APP_017 | Fall 2026

To the Undergraduate Admissions Committee:

I am pleased to recommend Emerson Nguyen for undergraduate study. I write as a classroom teacher (fictional recommender) at Columbus High School. This letter offers a fictional classroom or advising perspective for a simulated application; its narrative observations are not verified records.

In a simulated classroom exercise, Emerson initially approached a difficult question with a confident hypothesis. When the evidence did not support it, the student returned to the source material, compared explanations, and revised the response. That willingness to reconsider is a useful foundation for college work.

Another fictional example concerned a group discussion in which the first proposed answer left an important assumption unexplained. Emerson asked the group to state the assumption and check it against the task. The resulting conversation showed persistence and consideration for classmates. I would encourage continued growth in presenting an argument concisely and seeking clarification early.

I recommend Emerson Nguyen for thoughtful consideration. The admissions committee should review the complete packet and its own requirements before reaching a decision. I expect a college environment that invites questions and offers constructive feedback would support this student's continued development.

Sincerely, Casey Morgan Classroom teacher (fictional recommender) Columbus High School
