

Confidential Recommendation

Applicant APP_005 • Recommendation 1

Application ID	APP_005
Applicant	Casey Allen
Entry term	Fall 2026

To the Admissions Committee:

I am pleased to recommend Casey Allen. I have known Casey for three years through academic planning, course selection, and school activities. Across that time, I have seen a thoughtful student who prepares carefully, responds constructively to feedback, and contributes to the learning of others.

One example came through chess club member. Casey helped the group move from broad intentions to a workable plan, checked that responsibilities were understood, and followed up when deadlines changed. The strongest feature of this work was not simply the final product; it was the student's ability to make progress without taking ownership away from teammates.

Academically, Casey approaches difficult material with persistence. Questions are specific, revision is taken seriously, and connections are made between classroom ideas and an emerging interest in Neuroscience, Pre-Med. This combination of discipline and intellectual curiosity should translate well to college-level work.

I recommend Casey Allen with confidence. The student will bring reliability, curiosity, and a collaborative spirit to a university community. Please contact the school if additional context would be useful.

Sincerely,
Sydney Stone
School Counselor, Austin High School
