

Letter of Recommendation 2

Sage Stone | CAID: APP_016 | Fall 2026

To the Undergraduate Admissions Committee:

I am pleased to recommend Sage Stone for undergraduate study. I write as a classroom teacher (fictional recommender) at Denver High School. This letter offers a fictional classroom or advising perspective for a simulated application; its narrative observations are not verified records.

In a simulated classroom exercise, Sage initially approached a difficult question with a confident hypothesis. When the evidence did not support it, the student returned to the source material, compared explanations, and revised the response. That willingness to reconsider is a useful foundation for college work.

Another fictional example concerned a group discussion in which the first proposed answer left an important assumption unexplained. Sage asked the group to state the assumption and check it against the task. The resulting conversation showed persistence and consideration for classmates. I would encourage continued growth in presenting an argument concisely and seeking clarification early.

I recommend Sage Stone for thoughtful consideration. The admissions committee should review the complete packet and its own requirements before reaching a decision. I expect a college environment that invites questions and offers constructive feedback would support this student's continued development.

Sincerely, Harper Brooks Classroom teacher (fictional recommender) Denver High School
